Working with Foreign Nationals to Obtain P & O Visa Status in the United States

“

WHAT IS THE BIG DEAL?

A qualified U.S. agent representative can serve as petitioner while not interfering with the business affairs of foreign athletes and entertainers. Through our experience in petitioning for visas with our own athletes in individual sports such as boxing and mixed martial arts, we are able to bring the same solutions to other foreign nationals who are active in pretty much any professional sport or creative endeavor.

”

Benefits of the O-1 and P-1 Visa

Foreign nationals are missing out on opportunities by not securing non-immigrant visas through a U.S. representative. O & P visas can last for several years and survive changes in employment contracts. The foreign national can safely travel in and out of the country, and there are options available for immediate family members.
